1. BACKGROUND

Tell me a little about your personal career story

My passion towards data and analytics started when I was studying statistics during my Genetics degree and that eventually drove me towards IT, PowerBI especially.

What are some of the challenges you have when moving on in your career and looking for new opportunities?

Coming from a life sciences educational background, it was difficult to get into a job initially that I am passionate about and fortunately someone (Purview) believed in my skill set and made me what I am today.

What has been your experience of working with recruitment companies, both positive and downsides?

Positives – Updating with new roles in the market on time. Negatives – Delay or no feedback after interviews.

What's important to you about the recruitment company you work with?

Timely updates and being introduced to roles which are suitable for me by a knowledgeable recruiter in the BI industry.

2. ACTIONS / BEHAVIOURS

What specifically happened when you worked with us?

Surprised to see the whole process took less time than I experienced earlier.

How did you feel when we first connected?

Excited.

Archana Chakprani, Power BI Consultant

How prepared were you for interview?

Well prepared. Inputs from you helped me to get well prepared and what to expect.

How was the entire recruitment process?

As mentioned earlier, surprised to see the whole process finish in less time and smoothly. You promptly addressed all my queries.

3. RESULTS

What was the outcome?

Delighted to be selected and offered employment.

Would you recommend us, and if so, why?

Definitely, because you made the whole process easy and crisp.
